Save
Save your document to your computer

Print
Print your page to a printer or to pdf

Zoom in
Magnify the text on your document

Zoom out
Shrink the text on your document
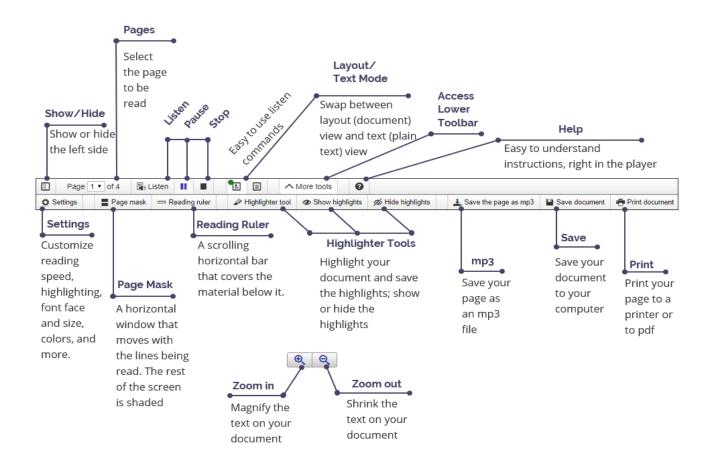

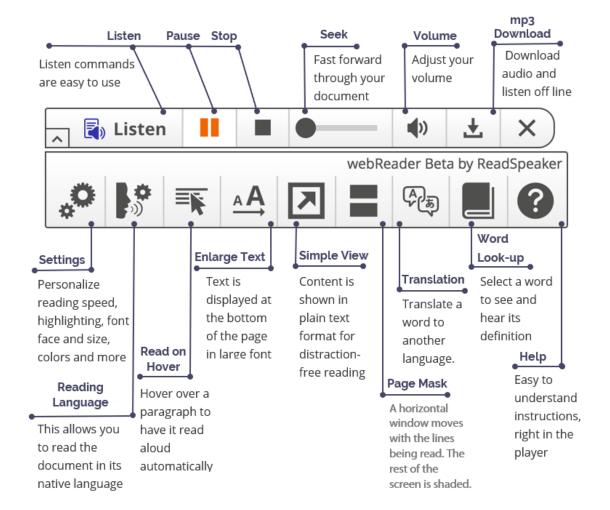

Highlights of docReader

- docReader is used for reading many office and pdf files.
- Distracted readers will find the Page Mask tool and the Reading Ruler tool to be especially beneficial.
- If you need to remove the decorative pictures, swap to Text Mode.
- If you are viewing your material on a small screen, you can hide the left sidebar of docReader.
- You can also zoom-in or zoom-out on the document.
- Customize your settings to you. You will need to make the adjustments on each device.
- You can save the document to your computer.
- Make studying easier by highlighting your documents, and then save the highlights.
- Turn pages automatically (Settings) so that you don't have to select the next page.

Listen — Listen commands are easy to use

Pause

Stop

Seek — Fast forward through your document

Volume — Adjust your volume

mp3 Download — Download audio and listen off line

Listen

webReader Beta by ReadSpeaker

Settings — Personalize reading speed, highlighting, font face and size, colors and more

Reading Language — This allows you to read the document in its native language

Read on Hover — Hover over a paragraph to have it read aloud automatically

Enlarge Text — Text is displayed at the bottom of the page in large font

Simple View — Content is shown in plain text format for distraction-free reading

Translation — Translate a word to another language.

Page Mask — A horizontal window moves with the lines being read. The rest of the screen is shaded.

Word Look-up — Select a word to see and hear its definition

Help — Easy to understand instructions, right in the player
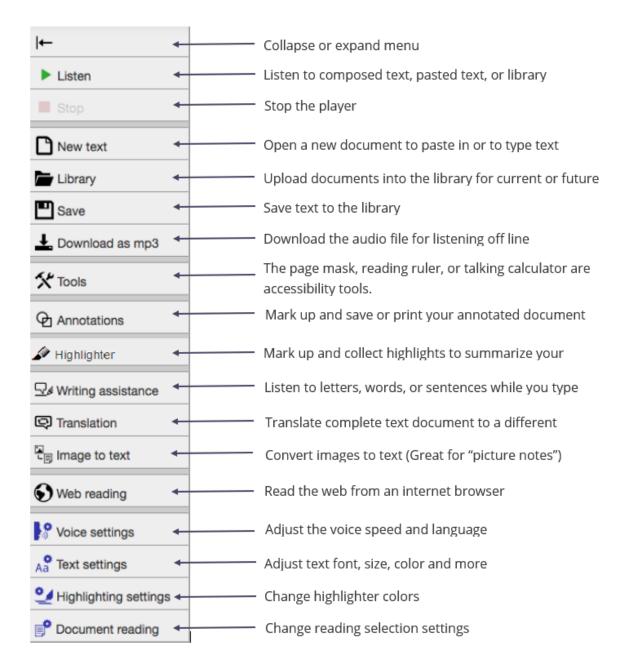

Highlights of webReader

- Fast forward through your streaming document with the Seek tool.
- Adjust the volume and the settings to your preferences. This will need to be done on each device.
- Download the audio for off line listening.
- The Read on Hover tool allows you to move your cursor down the page highlighting paragraphs to be read.
- The Enlarge Text tool shows the magnified text at the bottom of the page for those with lower vision or who are distracted readers.
- For the distracted reader, the Simple View tool (removes decorative images), or the Page Mask tool will be good options.
- Don't know a word? Translate it to a different language with the Translation tool or look it up in the dictionary option called Word Lookup.
